

To our valued customers and partners,

We all know that we are in a time of a lot of uncertainty. We are taking the COVID-19 crisis seriously and we are doing what we can to protect our employees, customers and industry partners. As a business that supports and supplies equipment to the agricultural sector, we are considered an essential business to the food supply chain. We have many employees working from home, if their job allows, and are here to help support you remotely anyway we can.

Currently, we are still operating all of our manufacturing facilities, however we do have plans in place if we need to temporarily reduce our on-site manufacturing staff, but we are committed to meeting our customers' needs to the best of our ability.

Our parts department is still shipping orders like normal, please call or email us. If you get a voicemail, we will return your call as soon as possible.

We appreciate your continued business and support during these difficult times. This situation is very fluid and could change daily. We intend to conduct business as close to normal as possible, but please be patient during this time. We will do whatever we can to continue to serve our customers to the best of our ability.

Please stay safe and healthy

Thanks again for your business

Darin
